

Years+ in operation  
October 6, 1981, to date

Share of global small  
satellite market

Spacecraft launched per year

Number  
of Surrey  
constellations  
deployed and  
under contract  
(DMC, RapidEye,  
F7, DMC3,  
Kanopus)

Launches from 8 launch sites

Number of satellites currently  
operated or monitored from our  
Mission Control Center

Surrey satellites launched

Lightest Surrey  
spacecraft  
(STRaND-1)

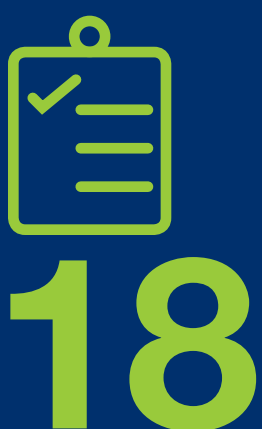

Heaviest Surrey  
spacecraft  
(GIOVE-A)

Surrey satellite years in orbit

Longest duration Surrey satellite  
operating in orbit (years)

Surrey space  
development and  
training programs

Space agencies formed

Spin-off  
companies

Satellites in design and  
manufacture under contract

Payloads in manufacture  
under contract
